

# Recycling Council of Alberta Annual Conference 2014

Christine Della Costa  
Alberta Environment & Sustainable  
Resource Development

# Presentation Overview

**Sometimes it's  
hard to know what  
to do ...**

# Consultation on proposed Designated Materials Recycling Regulation

Proposed changes to Alberta's regulatory framework for recycling designated materials:

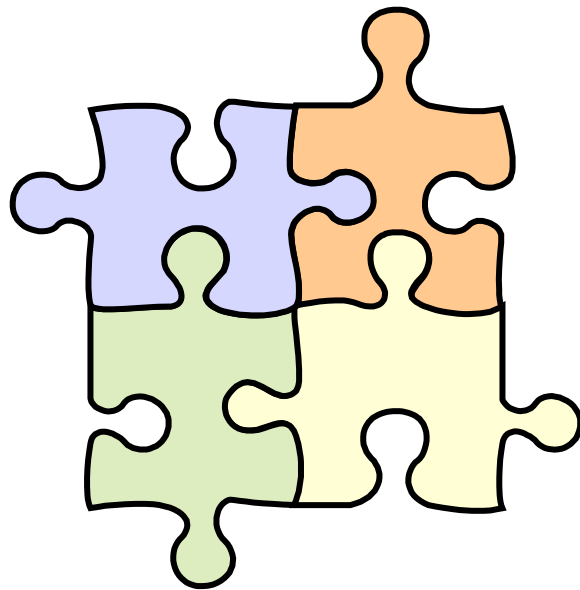

1. Consolidate existing regulations
2. Remove specific environmental fees from regulation
3. Electronics recycling program expansion
4. Used oil materials recycling program: environmental fee and expansion
5. Enable extended producer responsibility
6. Designate packaging & printed paper and household hazardous waste to be managed under extended producer responsibility recycling programs

# Focus for Today

Proposed changes to Alberta's regulatory framework for recycling designated materials:

1. Consolidate existing regulations
2. Remove specific environmental fees from regulation
3. Electronics recycling program expansion
4. Used oil materials recycling program: environmental fee and expansion
- 5. Enable extended producer responsibility**
- 6. Designate packaging & printed paper and household hazardous waste to be managed under extended producer responsibility recycling programs**

# Points to Ponder ...

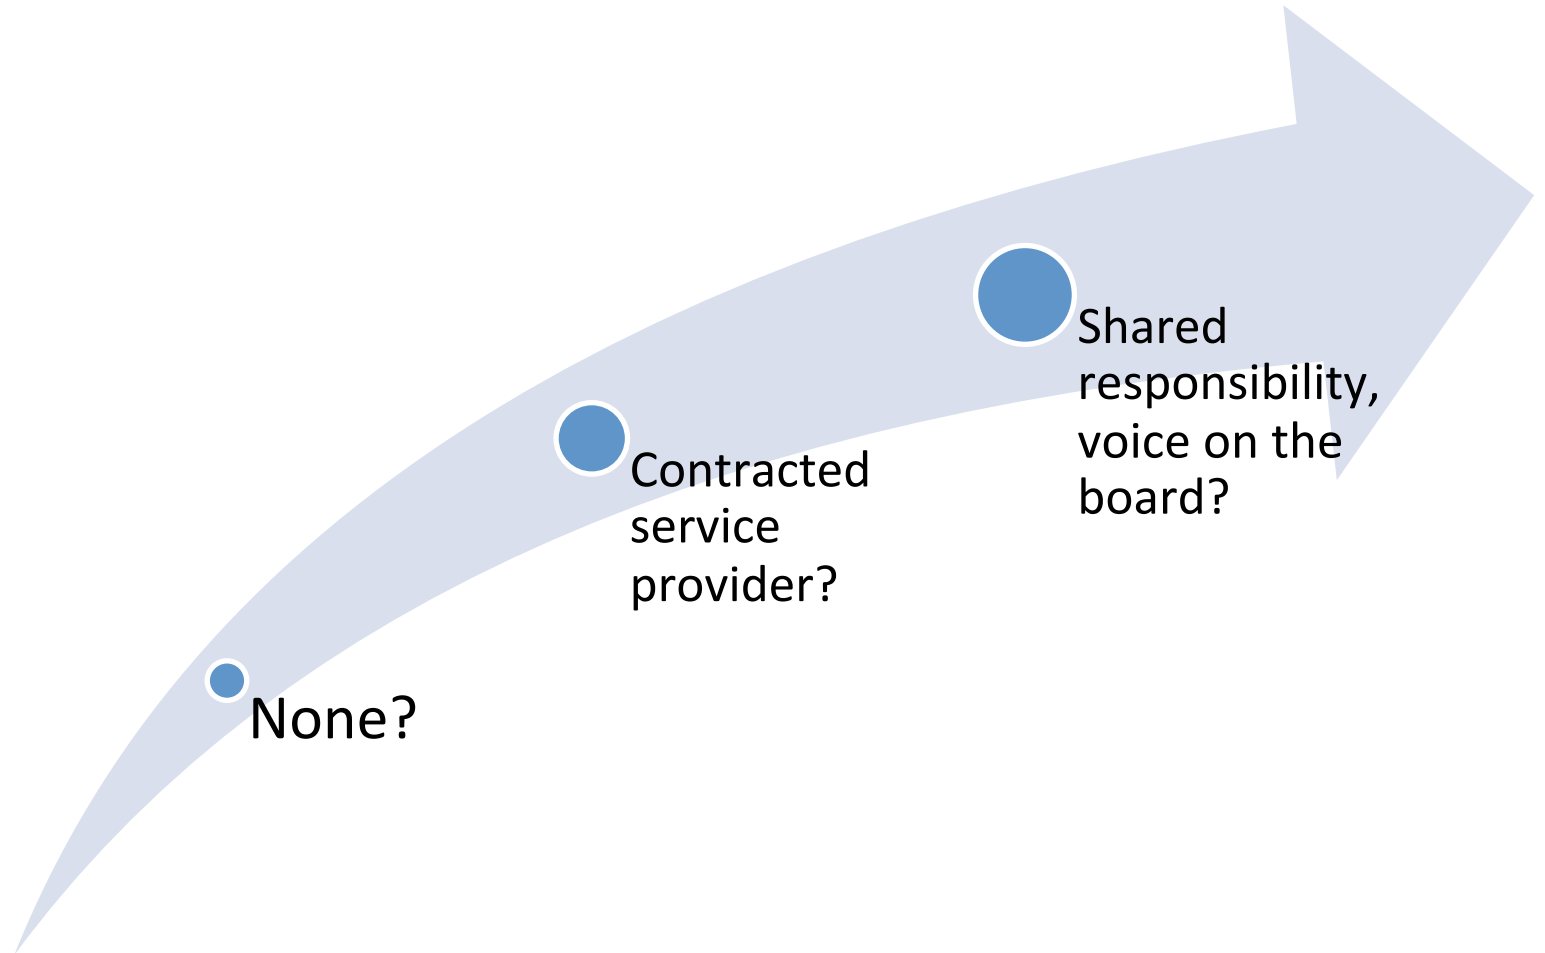

# Competition

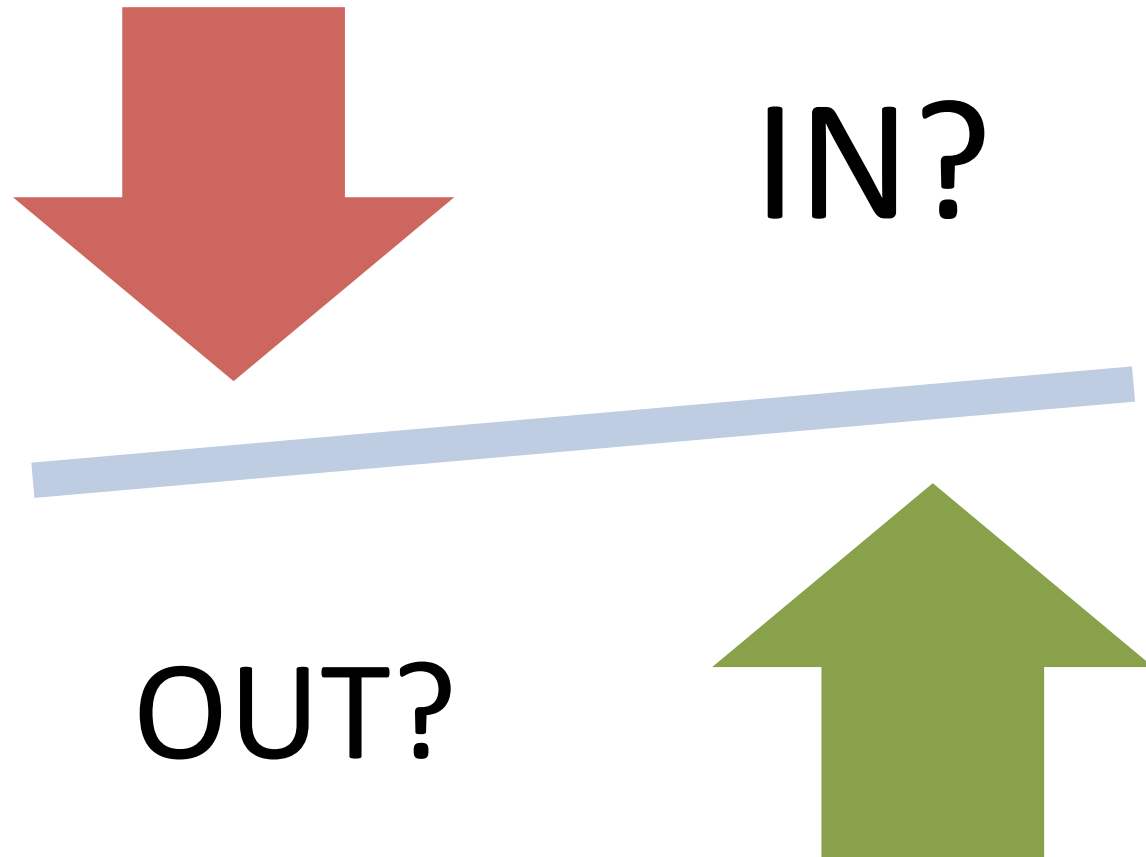

Producers/Stewards

Service Providers

# Municipal Role

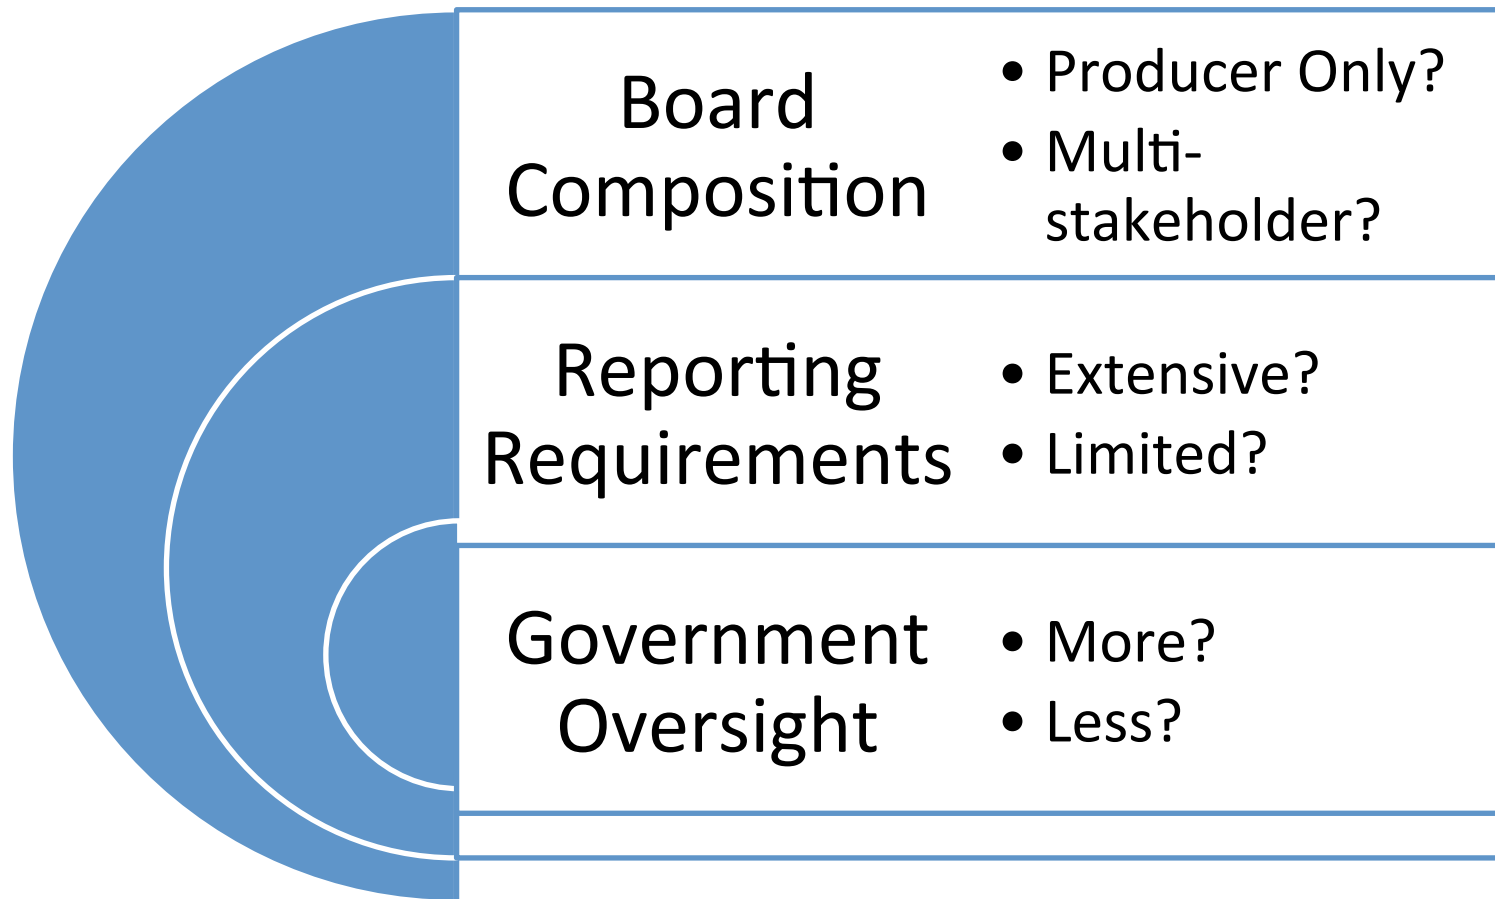

# Non-Residential (ICI) Material

# Governance & Oversight

# Money

# What's the "Right" Answer?
